

Girlguiding Risk Assessment

Site:	Foxlease	Assessment No.	FX / LAD
Assessor	Ivan Hall	Description of Building or Area	Ladder challenge area near pioneering area.
Date of Assessment	04/01/2017		
Task/Activity/Process/Equipment	Ladder Challenge		
Technical Advisor (if applicable)		Equipment used (if applicable)	Helmets, Harnesses, Ropes etc.
Persons Name (If Applicable to vulnerable Groups etc)			
When Identifying HAZARDS consider:			
a) The Task (Who, What, Where, When, How)			
b) The environment (temperature, noise, lighting, dust, fumes)			
c) Materials, Equipment, and Substances (machinery, tools, chemicals, etc)			

RA REF No.	Hazard	Description of potential accident/injury/loss	Persons affected	Precautions/Controls already in place	Risk Rating Factor=SxL			Further control measures required?	Action By Whom	To be completed by (Date)
					Severity	Likelihood	Factor			
LAD	Being hit by falling objects	Tree branches etc. could cause cuts / grazes or concussion	Unauthorised user, Instructors and Participants.	All people inside the compound (fenced off area) to wear a correctly fitting helmet. The Instructor to enforced this all the way through the session.	3	1	3			
LAD	Falling off the ladder challenge	Not secured / Incorrectly attached to the safety rope can cause cuts / grazes and potential death	Unauthorised user, Instructors and Participants.	Instructors are Assessed by an MIA or MIC Instructors to follow the Safe Operating Procedures, climbers to be correctly attached to the safety rope.	5	1	5			
LAD	Equipment failure	Unchecked equipment means a potential failure, serious injuries or death.	Unauthorised user, Instructors and Participants.	All equipment that is used is pre checked during the activity set up. Checked on a Recorded Monthly inspection and correctly stored after use.	5	1	5			
LAD	Slipping off the ladder challenge	slipping on / off wet beams can cause bruising, cuts, grazes and potential body injuries.	Unauthorised user, Instructors and Participants.	Instructors are Assessed by an MIA or MIC The Instructor to give a clear brief about the slippery areas and to follow the Safe Operating Procedures, ensuring climbers are correctly attached to the safety rope.	4	1	4			
LAD	Incorrectly fitted Equipment	Equipment not correctly fitted. A loose harness rubbing against the skin or sliding down the waist. The helmet moving back and the forehead hits the tower causing a concussion or asphyxia from the helmet strap	Instructors and Participants	Instructors are Assessed by an MIA or MIC Instructors to follow the Safe Operating Procedures, Qualified instructors to check all equipment is correctly fitted in line with their training and the Safe Operating Procedures.	4	1	4			

LAD	Incorrect belaying	Participants getting rope burn when lowering off the climber. Participant slipping and banging their knees causing minor injuries.	Participants, Unauthorised user	Instructors are Assessed by an MIA or MIC. The Instructor has control of the safety line when lowering to ensure the participants does not descend down to fast and can stop the participant to allow the area below to be clear. The Instructor ensures that the group is belaying correctly in line with Safe Operating Produces. Sessions are monitored to ensure safety briefs are clear, correct and are understood by the participants.	2	1	2		
LAD	Injury from poor instructions	Participants getting rope burn when lowering off the climber. Participant slipping and banging their knees causing minor injuries.	Participants	Instructors are Assessed by an MIA or MIC. The Instructor has control of the safety line when lowering to ensure the participants does not descend down to fast and can stop the participant to allow the area below to be clear. Sessions are monitored to ensure safety briefs are clear, correct and are understood by the participants.	2	1	2		
LAD	Different designs of ladder	Participants getting minor injuries from the different materials used on the ladders	Participants	Instructors are Assessed by an MIA or MIC. The Instructor has control of the safety line when lowering to ensure the participants does not descend down to fast. Participants are briefed about which parts of the ladder they are allowed to hold. Sessions are monitored to ensure safety briefs are clear, correct and are understood by the participants.	2	1	2		
LAD	Unauthorised use of equipment	Unauthorised use can result in death if the equipment is not set up or used correctly	Unauthorised user	A fence surrounds the area. The Instructor locks the area when they leave.	5	1	5		
This Risk Assessment work in conjunction with the Generic Risk Assessment (FX/GEN) and the Activities Safe Operating Procedures
